

Robin Flower's
Fiddle Lessons for Adults

Do you have the passion to play exciting and beautiful dance tunes in the Celtic, oldtime, swing or Cajun traditions? I can teach you.

From beginners to experienced players, I teach tunes to teach you how to play fiddle or become a better fiddle player. I cover intonation, bowing and rhythm, melody, double stops, back-up, useful scales and patterns, and soloing. I teach by ear/with music and charts. I find theory really interesting and I teach it as well as how to use it.

Playing fiddle with other people is so much fun. I teach the skills you'll need to feel comfortable playing with other musicians and instruments.

I offer Robin Flower's SwingStringBand to my students as a really fun and useful opportunity to play in a band situation with other instruments and singers. Please go to the menu and click on the SwingString Band page for more info.

I have taught fiddle privately, in groups, and at music camps for 25 years.
